1. If the bidder is a Micro or Small Enterprise as per latest definitions under MSME rules, the bidder shall be exempted from the requirement of "Bidder Turnover" criteria and "Experience Criteria" subject to meeting of quality and technical specifications. If the bidder is OEM of the offered products, it would be exempted from the "OEM Average Turnover" criteria also subject to meeting of quality and technical specifications. In case any bidder is seeking exemption from Turnover / Experience Criteria, the supporting documents to prove his eligibility for exemption must be uploaded for evaluation by the buyer.
2. If the bidder is a Startup, the bidder shall be exempted from the requirement of "Bidder Turnover" criteria and

"Experience Criteria" subject to their meeting of quality and technical specifications. If the bidder is OEM of the offered products, it would be exempted from the "OEM Average Turnover" criteria also subject to meeting of quality and technical specifications. In case any bidder is seeking exemption from Turnover / Experience Criteria, the supporting documents to prove his eligibility for exemption must be uploaded for evaluation by the buyer.

3. Purchase preference will be given to MSEs having valid Udyam Registration and whose credentials are validated online through Udyam Registration portal as defined in Public Procurement Policy for Micro and Small Enterprises (MSEs) Order, 2012 dated 23.03.2012 issued by Ministry of Micro, Small and Medium Enterprises and its subsequent Orders/Notifications issued by concerned Ministry. If the bidder wants to avail themselves of the Purchase preference, the bidder must be the manufacturer / OEM of the offered product on GeM. Traders are excluded from the purview of Public Procurement Policy for Micro and Small Enterprises and hence resellers offering products manufactured by some other OEM are not eligible for any purchase preference. In respect of bid for Services, the bidder must be the Service provider of the offered Service. Relevant documentary evidence in this regard shall be uploaded along with the bid in respect of the offered product or service and Buyer will decide eligibility for purchase preference based on documentary evidence submitted, while evaluating the bid. If L-1 is not an MSE and MSE Seller (s) has / have quoted price within L-1+ 15% (Selected by Buyer) of margin of purchase preference /price band defined in relevant policy, such MSE Seller shall be given opportunity to match L-1 price and contract will be awarded for % (selected by Buyer) percentage of total quantity. The buyers are advised to refer the OM No. F.1/4/2021-PPD dated 18.05.2023 [OM No.1 4 2021 PPD dated 18.05.2023](#) for compliance of Concurrent application of Public Procurement Policy for Micro and Small Enterprises Order, 2012 and Public Procurement (Preference to Make in India) Order, 2017. Benefits of MSE will be allowed only if seller is validated on-line in GeM profile as well as validated and approved by Buyer after evaluation of documents submitted.

4. Estimated Bid Value indicated above is being declared solely for the purpose of guidance on EMD amount and for determining the Eligibility Criteria related to Turn Over, Past Performance and Project / Past Experience etc. This has no relevance or bearing on the price to be quoted by the bidders and is also not going to have any impact on bid participation. Also this is not going to be used as a criteria in determining reasonableness of quoted prices which would be determined by the buyer based on its own assessment of reasonableness and based on competitive prices received in Bid / RA process.

Name of the Item : Development of Software (For Pig Help Line System and real time ante-mortem inspection of pigs and post-mortem inspection of pork carcasses)

Required technical specifications and Scope of Work:

Purpose: The purpose of the Pig Helpline is to establish a channel of communication between the pig farmers and qualified pig health experts through the ICAR National Research Centre on Pig. The Institute envisions to set up a call centre dedicated to the pig farmers of the country. This is going to be an application to provide the pig farmers real-time input for effective management of their pig farms. The application shall be able to keep a track of the animals in the farmers premises.

Detailed technical specifications: The farmers shall have the facility to call up the Pig Helpline Call Centre for advisory regarding their pig farms and queries related to pigs. The software shall have the provision for integrating animal data from different geographic locations across the country (geotagging) and shall be parameterized based on geographic location, breed and gender of the animal, type of farm - Breeder, Finisher or Mixed etc. The software shall support ration balancing of feeds for pigs using different ingredients. The software shall also support in integrating the information pertinent to pig health, pig nutrition and managerial practices followed by the farmers. In addition to the farmer interface, the software will also have an interface that will allow remote monitoring of slaughterhouse operations including but not limited to anti-mortem examination of pigs ; post-mortem examination of pork carcasses and integrating the data of animal weight and temperature monitoring via IoT devices; two-way real-time communication provision between Central Hub at ICAR-NRC on Pig, Guwahati, Assam and STI Extension Hub located at Gogamukh, Dhemaji, Assam etc. It shall also support on-boarding different stakeholders associated with pig value chain e.g. farmers, retailers, wholesalers, processors, transporters, feed suppliers, etc. The software shall integrate any other relevant information required for ensuring traceability in the pig and pork value

e chain.

The bidder shall provide solution to host the developed and tested application. The bidders need to undertake cloud hosting of web application in appropriate server, preferably AWS, Google or Azure based on the proposed technical solutions by them. The bidder needs to integrate and perform any third-party application programming interface (APIs) they propose to use in order to enhance the functionality of the call center and the software in general. In brief, the bidder shall undertake design, development, installation and commissioning of the Pig Help Line System with application support and hosting of the application in cloud server (the external domain and server shall be purchased for at least 5 years by the bidder in the name of ICAR-NRC on Pig at the time of hosting the application). The mobile app should be uploaded into google play store and Indus App store and also be available in the web portal for download. The bidder shall provide all the relevant programming codes used for development of the software to ICAR-NRC on Pig immediately after the final testing and hoisting of the software.

Component 1: Mobile and Web Application Functionalities for Farmer Interface

The software shall have mobile as well as web applications which should be developed for android platform (for mobile application) and a web application. This will act as the interface for the farmers to register themselves and upload their queries to fetch advisory and directives for animal care and piggy related queries. Some functionalities required are detailed hereunder but not limited to: The interface shall have facilities to register farmers by themselves and capture critical data about their farm and farm practices, including photographs. The app shall support automatically geotagging the photographs, and shall be scalable. The app/webpage shall be designed in such a way that the farmers can use it with ease and minimum support. The labels and contents shall be prepared in English.

Component 2: Mobile and Web Application Functionalities for Abattoir Interface

The software shall have mobile as well as web applications which should be developed for android platform (for mobile application) and a web application. This app is going to be the interface for the central control unit for the real time monitoring of slaughter and further processing operators to remotely verify and conduct quality checks for proper abattoir operations. Some functionalities are detailed hereunder but not limited to: The app shall have the facilities to register pigs receiving in abattoir for slaughter purpose and capture some critical data through checklists, images and IoT devices. The app shall have interface for uploading photographs of the animals and meat portions for facilitating real time ante-mortem and post-mortem inspections. The app/web page shall be designed in such a way that the operators can use it with ease and minimum support and the labels and contents of mobile app/webpage shall be in English.

Additional requirements: The firm shall have registered office located in Guwahati. The firm shall depute the developer team to ICAR-NRC on Pig for detailed discussion with the project team and has to visit the extension and central hubs during installation and testing phases of the software along with the project team, as and when required during the development, testing and hoisting phases.

Performance Security and EMD

1. Performance Security of an amount equivalent to 5 % of the total contract value has to be deposited by the firm/agency within seven days of intimation of the award of the work.
2. The amount of Performance Security money will be refundable without any interest after 2 months of successful completion of the contract period.
3. The Performance security money can also be utilized to recover any loss/damages faced by the institute due to poor service/not attending service within the stipulated timeframe.
4. No interest will be paid against EMD and security deposit.
